BRING YOUR RESEARCH TO *ALL* OF OKLAHOMA

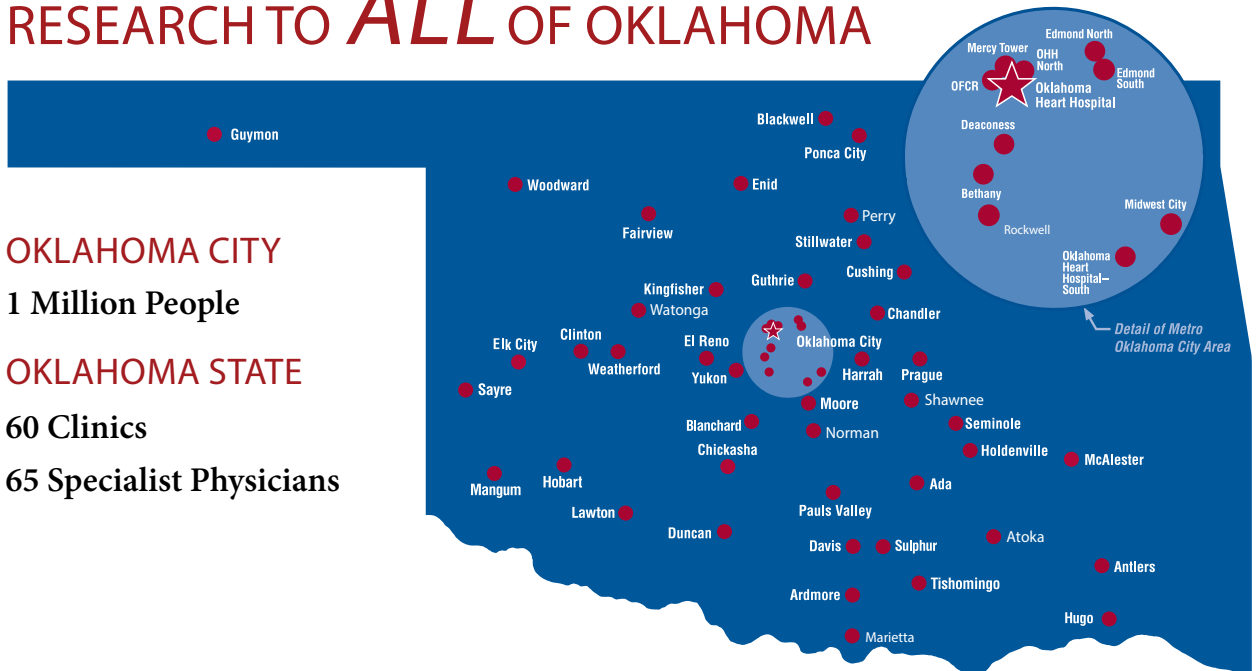

OKLAHOMA CITY

1 Million People

OKLAHOMA STATE

60 Clinics

65 Specialist Physicians

ABOUT US

The Oklahoma Heart Hospital Research Foundation is affiliated with the Oklahoma Heart Hospital, which was the first all-digital hospital in America totally dedicated to the care of hearts.

The foundation operates as a clinical research site for the following types of studies:

- Pharmaceutical
- Biotechnology
- Medical device
- Biomarker

As one of the largest cardiovascular research sites in North America our team continues to lead the way in research by:

- Meeting enrollment goals
- Providing quality data
- Adhering to GCP
- Operating in compliance to regulatory requirements
- Utilizing our access to a large patient population

ONE OF THE **LARGEST** CARDIOVASCULAR RESEARCH SITES IN NORTH AMERICA

Positioned in Oklahoma, our foundation has access to a patient base of approximately **1 million people in the Oklahoma City area alone**. Our network of more than 65 cardiac specialists practice in more than 60 metro and rural clinics around the state of Oklahoma.

Our facility is equipped with:

- Dedicated monitoring space
- - 20⁰ degree freezer
- Laboratory
- Clinic rooms for patient visits
- EKG, as well as easy access to a pharmacy, CXR, holter monitoring, stress testing, nuclear testing, MVO₂, PET Scan & MRI/MRA

20 YEARS OF RESEARCH

The Oklahoma Heart Hospital Research Foundation, a non-profit organization, was founded in 1993 as the Oklahoma Foundation for Cardiovascular Research by Oklahoma cardiologists. After the construction of the Oklahoma Heart Hospital it was re-named in order to show connection with the same group.

The foundation's goal is to reduce the mortality rate from heart disease and to improve patient outcomes. To accomplish this end the foundation participates in clinical research, educational programs for mid-level providers, philanthropy, and supports a free clinic based in Midwest City, Oklahoma.

WORKING WITH THE OKLAHOMA HEART HOSPITAL

In addition to our network of physicians and clinics, our ability to meet and exceed patient recruitment goals is a function of Oklahoma Heart Hospital's well established specialty institutes including:

- The Heart Failure Institute
- The Heart Rhythm Institute
- The Peripheral Vascular Institute
- The Heart Valve Institute

THE FUTURE

The Oklahoma Heart Hospital Research Foundation is expanding its clinical research capabilities. We are currently participating in over 50 clinical trials and actively enrolling in 25. Our seasoned research staff includes:

- Certified Clinical Research Coordinators (CRCs)
- RNs
- On-site quality and compliance expertise
- Independent oversight of quality assurance

We work with many central IRBs and have a preferred relationship with MaGil IRB.

Through longstanding positive relationships, the Oklahoma Heart Hospital Research Foundation has become a **preferred clinical research site** for many pharma, biotech, and device clinical studies.
